2014
Martha's Vineyard Magazine

Thank You for Believing in The P.A. Way.

Over the last 30 of his 40+ years of experience, Patrick Ahearn has proudly preserved the beauty of Martha's Vineyard's natural historic environment. With over 200 completed residential and commercial projects on the island, Patrick has dedicated himself to enhancing island life by esteeming the historic aesthetic of the locale, while addressing the needs of contemporary lifestyles. While we praise Patrick for the timeless gambrels, unified neighborhood imagery, and the revitalized historic Edgartown village, none of this could have been realized without our fellow Vineyarders who are the true foundation of this island lifestyle. Patrick Ahearn Architect LLC would like to extend a tremendous thank you to our friends, families, clients, and everyone who voted for us for Best of the Vineyard. It has been a great honor to enhance the island environment over the years and it is an even greater honor to be recognized for such endeavor.
